-  Team confidence instilled by proven experience
-  An honest broker defending your interests

Government Contracts

Cage Code: 76RR1 DUNS:057634108

TransR performed Executive Analytical and Advisory tasks on the Missile Defense Agency Engineering & Support Services (MiDAESS) contract. For this effort, we collaborated on product information organization, consistency, accuracy, and completeness; continual process improvement; acquisition; logistics/sustainment; and operations support. Principles of DOD 5000, Product Support Analysis and the 12 Integrated Product Support Elements were all under active focus.

Commercial Contracts

TransR performs contracts in all major commercial industry sectors. For Aerospace and Defense, TransR engages firms such as Bell Helicopter, Pratt & Whitney, Honeywell, General Dynamics, Lockheed Martin and MIT Lincoln Labs. Other firms from diverse industries include Merck, Optivus Proton Therapy, MKS Instruments, Weir Valves and Controls, FRAM, Prestone, and Nike.

Activities include business process transformation; business system modernization; secure collaboration; intellectual property (IP) protection; ITAR and Dept. of Commerce regulatory compliance; PLM enterprise system deployment; database and interface design and deployment; and ERP, MRO, CRM and CAD/CAM/CAE system integration.
